

Science - Cooking: No fuss donuts! or Homemade Pizza

Linked to these learning areas,

Math - Measurement (quantity) Geometry (shape) Fractions (half, quarter, whole, equal)

Writing - write your own recipe adding in your own touch of ingredients.

Reading - read the recipe below, think of questions you and your family could ask. (How many ingredients are used in this recipe? How much would we need to serve 20 people?) examples

Prep time: 5 min Cook Time 5 min Total time: 10 min Serves: 10

<https://bunch.woolworths.com.au/recipe/10006630/Two-ingredient-donuts>

Ingredients

- 3 cups Self raising flour
- 1 and a half cups Greek yogurt
- For frying Oil

Method

1. Combine yogurt and flour knead until smooth Press into preferred shape then they're ready to be fried (Can add sugar if you like)

Tip: Pre heat oil on medium heat to allow donuts to cook through. Use room temperature yogurt. This can also be used as a pizza base.

Here are some photos of donuts my husband made,
