

Kia Ora Whanau,

I have added you all either via the email or phone numbers in the school system to Room 4's classroom. Class dojo is something I use with the tamariki at school as a positive rewards system. Class dojo has an area where I can upload ideas for learning during this uncertain time. It also has a messenger system where you can message me through the app with any concerns or progress of your tamariki.

I will be posting fun learning ideas through the app as well as uploading ideas for learning on the school website.

Here are a few links to ideas I have shared:

- Learning science at home can be fun and engaging.
On this website, there are so many great experiments to choose from and most have a video to help with instructions.
If you create any of these experiments, share your creations with the class by posting a photo or video :)
<https://www.sciencefun.org/kidszone/experiments/>
- Reading at home on fun brain!
The fun brain website has some great books to read to yourself, your siblings, or the whole whanau!
It also has some great maths games, videos, and a gaming playground for you to access.

- Let's learn our basic facts in a fun new way:
<https://www.timestables.co.nz/>
This is an interactive website! You can check your answers after you enter them into the boxes or you can make your own cue cards to help you learn without the use of the internet.
- Letters and sounds:
<https://www.youtube.com/watch?v=2Xy2e78qxNg>
- Blends:
<https://www.youtube.com/watch?v=ZXgfO1jSljQ&t=10s>
- Here are some links to the dance videos we did in Room 4 as part of our physical exercise:
<https://www.youtube.com/user/justdancegame>
<https://www.youtube.com/channel/UCrjc-a5eoSwqps6eUTkytQ>
<https://www.youtube.com/user/GoNoodleGames>
Let's get moving and see what new dances we can learn at home!
